

ICFIP 2024

2024 7th International Conference on
Frontiers of Image Processing
Macau, China / August 16-18, 2024

Image processing is now routinely used by a wide range of individuals who have access to digital cameras and computers. With a minimum investment, one can readily enhance contrast, detect edges, quantify intensity, and apply a variety of mathematical operations to images. 2024 7th International Conference on Frontiers of Image Processing will be held in Macau, China during August 16-18, 2024. It aims to provide a forum for researchers, practitioners, and professionals from the industry, academia and government who are working in the field of image processing to discourse on research and development, professional practice in related fields.
